JOB SUMMARY

I have over 11+ years of profound experience in User Experience Design and Delivery. I got exposure in working on various engagements for clients across sectors such as Banking & Finance, Telecom, Health care, Entertainment for various clients like AVAYA Telecom, SBI Bank, Citi Bank, HDFC Bank, YES Bank, Informatics, Microsoft . I have successfully executed/managed variety of assignments including product ideation & conceptualization, interaction design, information design, user experience evaluation reports (expert reviews) and usability testing with tool based methods. Defined highest standards of user experience for Software Products, GUI Applications, Web Dashboard Applications, Virtual and Augmented reality, Mobile Applications, Websites, Intranet Applications, and Apps for different devices . Hands on experience in user centered methodologies and design thinking. I have evangelized the benefits of usercentered design to businesses and project teams through actual demonstration of how it can add value, influence process and bring enhanced user experiences for customers and profits to their business
